Notes to the Financial Statements
For the Six Months Ended June 30, 2018 and 2017
(Expressed in Canadian dollars)

1. DESCRIPTION OF BUSINESS AND NATURE OF OPERATIONS

Northern Superior Resources Inc. (“Northern Superior” or the “Company”) is an exploration stage junior mining company engaged in the identification, acquisition, evaluation and exploration of gold properties in Ontario and Québec. The Company has not determined whether its properties contain mineral reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation properties and related deferred costs is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development, and attaining future profitable production from the properties or proceeds from disposition.

The head office, principal address and registered and records office of the Company is 1351C Kelly Lake Road, Unit 7, Sudbury, Ontario, Canada, P3E 5P5.

2. BASIS OF PREPARATION

a) Statement of Compliance

The condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”) as issued by the International Accounting Standards Board (“IASB”). Except as noted below under Changes in Accounting Policies, these condensed interim financial statements follow the same accounting policies and methods of application as the annual financial statements of the Company for the year ended December 31, 2017. These condensed interim financial statements do not contain all disclosures required by International Financial Reporting Standards (“IFRS”) and accordingly should be read in conjunction with the 2017 annual financial statements and the notes thereto.

These condensed interim financial statements have been prepared under the historical cost convention, except for certain financial instruments, as set out in the accounting policies in Note 3 of the 2016 annual financial statements. Unless otherwise indicated, all dollar amounts in these condensed interim financial statements are in Canadian Dollars.

The preparation of financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the condensed interim financial statements are disclosed in Note 3 of the 2017 annual financial statements.

As at June 30, 2018, the Company has cash and cash equivalents of \$1,898,552 and working capital of \$1,805,500. In May 2016, the trial between Northern Superior and the Government of Ontario (the “Ontario litigation”) was completed with the judge ruling against the Company (“the trial decision”). On August 26, 2016, the Ontario Superior Court ordered the Company to pay \$440,570 in costs to the Province of Ontario in connection with the lawsuit; a provision for the full amount was recorded during the year ended December 31, 2016. At December 31, 2017, both the trial decision and the cost award were under appeal with the Ontario Court of Appeal, and on March 1, 2018, the Company announced it had concluded the Ontario litigation, avoiding any further court proceedings. The Company and the Ontario Government settled on a reduced costs amount (the “Amount”), which amount cannot be disclosed due to confidentiality restrictions as dictated in the final settlement. Payment of the Amount was made in the first quarter of 2018.

Northern Superior Resources Inc.
Notes to the Financial Statements
For the Six Months Ended June 30, 2018 and 2017
(Expressed in Canadian dollars)

While the Company has enough funds to allow it to continue its planned activities in the normal course, the Company is dependent on raising funds through the issuance of shares and/or attracting joint venture partners in order to undertake further exploration and development of its mineral properties. If the Company is unable to raise additional capital in the future and/or attracting joint venture partners for further exploration on its properties, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favourable terms and/or pursue other remedial measures. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern beyond 2018.

These condensed interim financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

b) Changes in Accounting Policies

The Company has adopted the following new standard, along with any consequential amendments, prior to or effective January 1, 2018. These changes were made in accordance with the applicable transitional provisions, and did not impact the Company's condensed interim financial statements.

- IFRS 2, "*Share-based payment*" (amended standard) is effective for annual periods beginning on or after January 1, 2018.
- IFRS 9, "*Financial Instruments: Classification and Measurement*" is effective for annual periods beginning on or after January 1, 2018. The Company adopted IFRS 9 retrospectively, without restatement of prior year financial statements. IFRS 9 replaces the provisions of IAS 39, Financial Instruments: Recognition and Measurement ("IAS 39") that relate to the recognition, classification, and measurements of financial assets and financial liabilities, derecognition of financial instruments and impairment of financial assets. IFRS 9 uses a single approach to determine whether a financial asset is classified and measured at amortized cost or fair value. The approach in IFRS 9 is based on how the Company manages its financial instruments and the contractual cash flow characteristics of the financial asset. The Company has elected to classify its marketable securities as Fair Value Through Other Comprehensive Income ("FVTOCI") as they are not considered to be held for trading, and this presentation will prevent the statement of income (loss) from being impacted by value changes of these non-operating assets. The application of IFRS 9 did not impact the Company's classification and measurement of financial assets and liabilities, and there was also no impact to the carrying value of any of the Company's financial assets or liabilities on the date of transition.
- IFRS 15, "*Revenue from Contracts and Customers*": the effective date of adoption has been deferred to January 1, 2018 (with earlier application permitted).
- IFRIC 22, "*Foreign Currency Transactions and Advance Consideration*": is effective for annual period beginning on or after January 1, 2018.

c) Accounting Standards Issued but not yet in Effect

- IFRS 16, "Leases": is effective for annual periods beginning on or after January 1, 2019.
- IFRIC 23, "Uncertainty over Income Tax Treatments": the effective for annual periods beginning on or after January 1, 2019.

The Company is currently evaluating the impact of these new and amended standards on its financial statements. The impact is not expected to have a material impact on the statements of financial position or results of operations.

a) Ti-pa-haa-kaa-ning ("TPK") property

The Company owns a 100% interest in the TPK property. Under an agreement with Lake Shore Gold Corp. ("Lake Shore") dated May 27, 2010, the Company granted Lake Shore an assignable 2% Net Smelter Royalty ("NSR") on all minerals produced from claims associated with the TPK property as at May 27, 2010 (subject to a right of first refusal in favour of the Company), with the Company having the right to purchase back one quarter of the NSR (0.5%) for \$1.0 million. Regarding the current claim package for TPK, Lake Shore's NSR provisions only apply to 141 of

Northern Superior Resources Inc.
Notes to the Financial Statements

the current 202 active claims. On 5 of the TPK claims, there is also a 2% NSR on all commodities in favour of Vale S.A., and on 7 of the TPK claims there is a 2% NSR for diamonds only in favour of Vale S.A.

b) Croteau Est property

The Company holds a 100% interest in the Croteau Est property, subject to a 1.0% NSR on any commercial production, of which Company has the right to buy back 0.5% for \$1.5 million.

c) Option Earn-in Agreement on Lac Surprise Property

In April 2014, the Company signed an option agreement ("Option Agreement") with Bold Ventures Inc. ("Bold") whereby Bold can earn a 50% working interest in the Company's 100% owned Lac Surprise property in consideration for the following:

	Common shares of Bold to be issued to the (#)	Minimum exploration expenditures on the property (\$)
On signing of the agreement	50,000 (received 2014)	-
1 year anniversary	50,000 (received 2015)	500,000 (incurred 2015)
2 year anniversary	100,000 (received 2016)	500,000 (incurred 2016)
3 year anniversary	150,000	1,000,000
	350,000	2,000,000

Pursuant to the terms of the agreement, Bold can earn an additional 10% in the property by delivering a positive feasibility study within five years from the date of execution of the formal option agreement, bringing its total interest in the property to 60%. Upon Bold earning its interest in the property (either 50% or 60%), the Company and Bold shall form a joint venture to hold the property and conduct further exploration activities. In June, 2017, the Company was advised by Bold that it was terminating the Option Agreement.

d) Wapistan Property

The Company owns a 100% interest in the Wapistan property.

e) Waconichi property

The Company owns a 100% interest in the Waconichi property, subject to a 1% NSR royalty on a majority of the Waconichi claims. The 1% NSR royalty covers all except 7 claims (comprising approximately 287 hectares) which were already subject to a prior 2% NSR royalty in favor of the prospector who originally staked the claims. The Company has the right to repurchase one half of the 1% NSR royalty (reducing it to a 0.5% NSR royalty) at any time for \$1.0 million. Similarly, the Company has the right to repurchase half of the Charbonneau 2% NSR royalty (reducing it to a 1% NSR royalty) at any time, for \$1.0 million. In either case, should the Company exercise its buy-back right, it will then have a right of first refusal with respect to the remaining NSR royalty.

f) Ontario litigation

In 2013, the Company recorded a write-off of \$6,005,125, representing the unamortized balance of its deferred exploration costs incurred in connection with the exploration of the Company's Meston Lake, Rapson Bay and Thorne Lake properties (the "Properties"). The decision to write-off the Properties was based on the Company's determination that it had lost the ability to access the Properties, as well as its ability to realize the benefits of any value created from its exploration

Northern Superior Resources Inc.

expenditures to date, due to the actions of third parties. On October 24, 2013, the Company filed a civil lawsuit against the Government of Ontario (the “Crown”) seeking among other things, damages of \$110 million and consisting mainly of amounts expended to date as well as for lost value of the Properties, as a result of lost access to the Properties.

In May 2016, the Ontario Superior Court (the “Court”) handed down its decision with respect to the trial dismissing the Company’s claim. The Court also required both the Crown and the Company to make submissions regarding costs. The Crown requested the Court to award costs in the amount of \$544,655. Northern Superior contested the Crown’s costs and countered with an offer of \$260,000. On August 26, 2016, the Ontario Superior Court ordered the Company to pay \$440,570 in costs to the Province of Ontario in connection with the lawsuit; a provision for the full amount was recorded during the year ended December 31, 2016. At December 31, 2017, both the trial decision and the cost award were under appeal with the Ontario Court of Appeal, and on March 1, 2018, the Company announced it had concluded the Ontario litigation, avoiding any further court proceedings. The Company and the Ontario Government settled on a reduced costs amount (the “Amount”), which amount cannot be disclosed due to confidentiality restrictions as dictated in the final settlement. Payment of the Amount was made in the first quarter of 2018. The Company intends to request the Provincial Mining Recorder to remove the "pending proceedings" notation which was recorded on the claims' abstracts and to provide that the claims will remain in an extended exclusion of time for a minimum of two years.

(i) On February 13, 2017, the Company announced concurrent financings (“Concurrent Financings”), as to:

Northern Superior Resources Inc.
Notes to the Financial Statements
For the Six Months Ended June 30, 2018 and 2017
(Expressed in Canadian dollars)

- a non-brokered private placement of 40,000,000 units (“Units”) at a price \$0.05 per Unit for gross proceeds of \$2,000,000 (the “Offering”). Each Unit comprised one non flow-through common share (“NFT Share”) and one non-transferable share purchase warrant (“NFT Warrant”) exercisable at a price of \$0.075 per share until two years after the date of closing.
- an additional non-brokered private placement to raise gross proceeds of up to \$2,500,000 by way of Units under the same terms as the Offering (the “Unit Offering”) and flow-through common shares (“FT Shares”) at a price of \$0.055 per share (the “FT Offering”). The Unit Offering and the FT Offering are collectively referred to as the “Concurrent Offering”, and subscribers could elect to receive Units or flow-through shares or a combination thereof.

The Concurrent Financings closed as follows:

c) Stock Options

The Company has a stock option plan (the “Plan”) to be administered by the Board of Directors, which has the discretion to grant options for up to a maximum of 10% of the issued and outstanding share capital amount. The terms of all options cannot exceed ten years and the minimum exercise price cannot be less than the closing price of the Company’s common shares on the TSX Venture Exchange on the last trading day preceding the grant of the option. All of the outstanding options of the Company were issued with an expiry date of 5 years from the date of issue. The Board of Directors determines the vesting terms of the options.

A summary of the changes in the Company’s stock option plan follows:

f) Basic and Diluted Loss per Share

The basic loss per share is computed by dividing the net loss by the weighted average number of common shares outstanding during the period. The diluted loss per share reflects the potential dilution of common share equivalents, such as outstanding stock options and share purchase warrants, in the weighted average number of common shares outstanding during the period, if dilutive.

Potentially dilutive items not included in the calculation of diluted loss per share includes stock options that are anti-dilutive.

9. RELATED PARTY TRANSACTIONS

The Company has arrangements pursuant to which parties related to the Company by way of directorship or officership provide certain services, either directly or through companies owned or controlled by the officers and directors. Transactions were in the normal course of operations and all of the costs recorded are based on fair value. The Company's related party expenses are allocated as follows:

Included in trade payables at June 30, 2018 is \$357 due to related parties (December 31, 2017: \$88,229) in expenses incurred on behalf of the Company.

10. FINANCIAL INSTRUMENTS

Management of Capital risk

The Company manages its capital structure and makes adjustments to it to effectively support the acquisition, exploration and development of mineral properties. In the definition of capital, the Company includes, as disclosed on its statement of financial position: share capital, deficit, equity reserves and cash and cash equivalents.

The Company's capital at June 30, 2018 and December 31, 2017 follows:

	June 30, 2018	December 31, 2017
	(\$)	(\$)
Share Capital	63,981,956	63,981,956
Reserves	10,347,185	10,347,285
Deficit	(65,498,948)	(65,160,475)
	8,830,193	9,168,766

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for general administrative costs, the Company will be using its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the period ended June 30, 2018. The Company is not subject to externally imposed capital requirements and does not have exposure to asset-backed commercial paper or similar products.

Carrying Values of Financial Instruments

The carrying value of financial assets and liabilities as at June 30, 2018 and December 31, 2017 follow:

	June 30, 2018	December 31, 2017
	(\$)	(\$)
Financial Assets		
<i>At fair value through profit or loss</i>		
Cash and cash equivalents	1,898,552	3,083,897
<i>Available-for-sale, measured at fair value</i>		
Investments in public companies	4,000	9,000
Financial Liabilities		
<i>Other financial liabilities, measured at amortized cost</i>		
Accounts payable and accrued liabilities	140,533	794,306

Fair Values of Financial Instruments

The fair values of cash and cash equivalents, receivables and accounts payable and accrued liabilities approximate their carrying values due to the short term to maturity of these financial instruments. The

fair value hierarchy of financial instruments measured at fair value on the statement of financial position is as follows:

	June 30, 2018 (\$)	December 31, 2017 (\$)
	Level 1	Level 1
Cash and cash equivalents	1,898,552	3,083,897

The Company does not have any financial instruments measured using Level 2 or 3 inputs. The Company does not offset financial assets with financial liabilities and there were no transfers between Level 1 and Level 2 input financial instruments.

Management of Financial Risks

The Company thoroughly examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks may include credit risk, liquidity risk, market risk and other price risks. Where material, these risks are reviewed and monitored by the Board of Directors.

i. Credit Risk

Credit risk is the risk of an unexpected loss if a party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to cash and cash equivalents and receivables. The Company has no significant concentration of credit risk arising from operations. The Company's surplus cash at June 30, 2018 and December 31, 2017, is invested in liquid low risk accounts in A rated Canadian Banks. Management believes that the credit risk concentration with respect to financial instruments included in receivables is remote. The Company is not exposed to significant credit risk and overall the Company's credit risk has not changed significantly from the prior year.

ii. Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2018, the Company had unrestricted cash and cash equivalents of \$1,898,552 (December 31, 2017: \$3,083,897) to settle trade payables and accrued liabilities totaling \$165,594 (December 31, 2017: \$843,151).

iii. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to short term interest rates through the interest earned on cash balances. A 1% change in short term rates would change the interest income and net loss of the Company, assuming that all other variables remained constant, by approximately \$18,985 at June 30, 2018.

Unless otherwise noted, it is management's opinion that the Company is not exposed to significant currency or commodity risk arising from financial instruments.

11. SEGMENTED INFORMATION

The Company conducts its business as a single operating segment being the mining business in Canada. All resource properties and equipment are situated in Canada.

12. COMMITMENTS AND CONTINGENCIES

At June 30, 2018, the Company has the following commitments:

- a) In respect of its operating lease:

	< 1 year	2-5 years	> 5 years	Total
	(\$)	(\$)	(\$)	(\$)
Lease	34,225	152,110	-	186,335

At June 30, 2018, the Company has the following contingencies:

- a) The Company has indemnified the subscribers of flow-through shares of the Company issued in prior years against any tax related amounts that may become payable as a result of the Company not making eligible expenditures.
- b) The Company's exploration and evaluation activities are subject to various Canadian federal and provincial laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.
- c) As at June 30, 2018, the Company owns various exploration and evaluation properties (Note 6). Management does not consider that any amounts related to decommissioning liabilities are payable although there is no assurance that a formal claim will not be made against the Company for some or all of these obligations in the future.
