NEWS RELEASE - For Immediate Release

Northern Superior Announces Prospecting Program and Amended Agreement, Grizzly Property, West-Central Québec

Sudbury, Ontario, May 27, 2015 - Northern Superior Resources Inc. (TSXV:SUP) ("Northern Superior") is pleased to announce that the Company has initiated a prospecting program for the Grizzly property, west-central Québec. The program will be completed by the end of June 2015, and will focus on the northwest part of the property where little work has been completed to date.

In addition, the original option agreement between Northern Superior, GL Geoservice Inc. and Marc Bouchard (see press release, July 16, 2013) granting Northern Superior the option to acquire 100% of the property (subject to a 1% NSR) has been amended to defer the required exploration expenditures, share issuances and cash payments to the Optionors by one year, extending the earn-in from 2018 to 2019. Notwithstanding this extension, Northern Superior retains the right to accelerate its earn in on the property.

The Grizzly mineral property of north-central Québec is an important early-stage exploration property to Northern Superior. So far, mineralization and shear zones identified on the property (see press release, April 29th, 2014; Figure 1) include:

- 1) Volcanic massive sulphide (VMS) targets (Lac Porphyre-Sud; Bras Pichamobi)
- 2) Magmatic nickel-copper +/- platinum-group-element targets (Ruisseau Daladier-Nord)
- 3) Shear-hosted gold and/ or gold-copper targets (Lac Mahekan; Keller; Grizzly/ Grizzly North; Queeniwich; Gladstone; Icestorm-Grêlon; Huitans; and Dussault); and
- 4) Three shear zones (Guêttard North, Guêttard and MD).

Dr. T.F. Morris, President and CEO of Northern Superior commented: *"Although the exploration program for 2015 is a small one (\$25,000), the information gathered will be important to the overall understanding of the mineral potential of this important property. The accommodation afforded by GL Geoservices and Marc Bouchard in the payment schedule of the option agreement provides much needed flexibility to Northern Superior at this time."*

About Northern Superior

Northern Superior is a junior exploration company exploring for gold in the Superior Province of the Canadian Shield. The Company is currently focused on exploring its Croteau Est, Lac Surprise and Grizzly properties in Québec. Northern Superior is currently looking to option out its 100% owned Ti-pa-haa-

kaaning gold, silver copper property in Ontario and its 100% owned Ville Marie diamond property in Québec. Northern Superior has developed a number of early stage exploration properties in both Ontario and Québec from its proprietary geoscientific data base.

Northern Superior is a reporting issuer in British Columbia, Alberta, Ontario and Québec, and trades on the TSX Venture Exchange under the symbol SUP.
