**NEWS RELEASE - For Immediate Release**

### **Northern Superior Resources Inc. Initiates Reverse Circulation Drill Program on Croteau Est Gold Project, West-Central Québec**

Sudbury, Ontario (February 12, 2014) **Northern Superior Resources** (“Northern” or the “Company”) is pleased to announce the start of a 95-hole reverse circulation (RC) drill program on its Croteau Est gold project in west- central Québec. This program will test the gold/basemetal mineralization potential of at least four targets on the property defined during the Company’s exploration programs completed during 2013.

Dr. T.F. Morris states: “The 2013 exploration programs defined a number of high quality targets from the various exploration activities completed, including a regional reverse circulation program, prospecting, bedrock mapping, trenching and geophysical compilation and interpretation (see press release, November 12, 2013). The bedrock and overburden data derived from this RC- drill program will greatly increase our understanding of the local and regional geology. The objective of the program is to identify additional mineralized bodies on the property such as the Croteau-Bouchard Shear Zone, discovered previously on the property by Northern Superior Resources Inc.”

#### **About Northern Superior Resources Inc.**

Northern Superior is a junior exploration company exploring for gold in the Superior Province of the Canadian Shield, specifically in the Provinces of Québec and Ontario (see Company web site [www.nsuperior.com](http://www.nsuperior.com)) in the Stull-Wunnumin and Chibougamau-Chapais gold districts. Northern Superior is a reporting issuer in British Columbia, Alberta, Ontario and Québec, and trades on the TSX Venture Exchange under the symbol SUP. For further information contact:

#### **For Investors**

*Forward looking statements: This news release includes certain “forward-looking information” within the meaning of Canadian securities legislation and “forward-looking statements” within the meaning of the United States Private Securities Litigation Reform Act or 1995 (collectively, “forward looking statements”). Forward looking statements include predictions, projections and forecasts and are often, but not always, identified by the use of words such as “seek”, “anticipate”, “believe”, “plan”, “estimate”,*

*“forecast”, “expect”, “potential”, “project”, “target”, “schedule”, “budget” and “intend” and statements that an event or result “may”, “will”, “should”, “could” or “might” occur or be achieved or other similar expressions and includes the negatives thereof. All statements other than statements of historical fact included in this release, including, without limitation, statements regarding potential mineralization, exploration results, interpretation of results, the timing and success of exploration activities generally, the timing and results of future resource estimates, and future plans and objectives of Northern Superior are forward-looking statements that involve various risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Forward looking statements are based on a number of material factors and assumptions. Important factors that could cause actual results to differ materially from Northern Superior’s expectations include exploration risks, changes in project parameters as plans continue to be refined, results of future resources estimates, future metal prices, availability of capital and financing on acceptable terms, general economic, market or business conditions, uninsured risks, regulatory changes, defects in title, availability of personnel, materials and equipment on a timely basis, accidents or equipment breakdowns, delays in receiving government approvals, unanticipated environmental impacts on operations and costs to remedy same, and other exploration or other risks detailed herein and from time to time in the filings made by the Company with securities regulators. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ from those described in forward looking statements, there may be other factors that cause such actions, events or results to differ materially from those anticipated. There can be no assurance that forward looking statements will prove to be accurate and accordingly readers are cautioned not to place undue reliance on forward looking statements.*

*Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.*
